

Product List

Dated 30 November 2009

About the Wholesale Access Fund

Product List

The Wholesale Access Fund Product List (Product List) contains the wholesale funds that you can invest in through the Australian Executor Trustees (AET) Wholesale Access Fund (WAF).

Generally, the Product List is updated quarterly. We may remove a wholesale fund from the Product List without notice.

Your Business Development Manager can help you to request that we add a wholesale fund to the Product List, however whether or not we choose to add the fund is at our discretion.

Who can invest in WAF

WAF is open to Australian residents, companies and trusts. To invest in WAF, you **must** have a financial adviser. Your financial adviser must in turn have access to:

- an AET product or service that has access to WAF including the Portfolio Management Service and the Private Super Fund or
- a Promoter of WAF.

Your financial adviser will provide you with the relevant information.

How to invest

Your total initial investment into WAF must be at least \$10,000 and your initial investment in each wholesale fund must be at least \$5,000. We do not accept deposits of cash.

To establish a WAF, please read and consider all the current IDPS Guide.

Management Cost

The fees and charges you pay for investing in a wholesale fund are detailed in the product disclosure statement for each fund and you should make sure you understand the fees before you invest. The Management Costs shown are current at the time of issue of the Product List. While the Product List is updated regularly you should refer to the issuer's product disclosure statement or offer document for more information about the fees and expenses charged. The product disclosure statements for each wholesale fund on the Product List are available from our website www.aetmyportfolio.com.au

Private Super Fund ratings

These ratings are relevant to investments made through a Private Super Fund. The rating determines the proportion of your fund that you can invest in the relevant wholesale fund. Investments are to be made in accordance with your elected investment strategy. For more information see the Private Super Fund PDS. The ratings are:

- NS = non speculative
- C = cautious
- S = speculative and
- HS = highly speculative.

Margin lenders

The following margin lenders can be used to gear investments through WAF:

- BankSA Margin Lending
- BT Margin Lending
- Colonial Geared Investments
- St George Margin Lending

See the WAF IDPS Guide for more information about margin lending.

Important information

You should refer to the relevant product disclosure statement for further information about any wholesale fund on the Product List. The product disclosure statements for each wholesale fund on the Product List are available from our website www.aetmyportfolio.com.au

The holding of units in any of the wholesale funds on the Product List through AET is subject to investment risk and other risks, which could result in loss of principal, income or involve delays in repayment. AET and the fund managers do not guarantee the repayment of your investment, or any particular rate of growth or distribution return.

AET does not endorse the wholesale funds on the Product List as being suitable for investment, nor do we make any representation about their worth or security. The information contained in this Product List is general information and does not take into account your individual objectives, financial situation or needs. You should assess whether this information is suitable for you and talk to your financial adviser before deciding to invest.

An asterisk ('*') in the following tables notes the fund is illiquid or suspended at the date this Product List was issued.
